

Tracey McBeth Kachor

Born in Winnipeg Manitoba, Tracey's early years were nomadic, moving across Canada until they settled in Alberta in 1979.

Through all the moves and new beginnings, there was one friend that never changed; her love for art.

Her earliest memories are the hours spent with crayons in hand decorating, drawing and creating.

Her schooling was spent developing these skills and talents for a career in design. With a growing family of her own, it is hard to find the time to create, but when time is available, can she ever create.
