

Brenda King

Brenda King has always been a maker. Dabbling in a variety of artistic materials finding her passion in glass and metal. She believes in continually learning and has been fortunate to learn from a variety of metal and glass bead instructors and continues to learn as opportunities present themselves. Brenda is a girl that fell in love with glass and metal. Throughout the past 18 years Brenda has enjoyed creating with glass and metal, taking classes, and being a vendor at many markets. Brenda has been able to share her artistic talents by teaching beginner & intermediate lamp work glass bead

making classes and sterling silver workshops with many students. Just to see that ah ha moment and light in their eye when a student says “I made that!” gives Brenda so much joy. Brenda absolutely loves sharing and creating one of a kind artistic-pieces. Brenda believes in giving back to the community and has done this by volunteering time and donating art jewelry and glass beads.
